Ms. Verneta Simon
US EPA, Region V
Emergency Response Branch
77 W. Jackson Boulevard
Chicago, IL 60604

Dear Ms. Simon:

I am writing to you in support of restoring the Calumet Container site to wetlands status. The EPA's proposed emergency cleanup of the site would comply with several provisions in the Wolf Lake Vision Implementation Committee's vision document. It is my understanding that the Vision Committee also contacted you about this site.

Thank you for your consideration of this project, if my office may be of any assistance to you please do not hesitate to contact me.

Sincerely,

Mike Quigley
Cook County Commissioner
10th District
